

# Glyco-Core Symposium 2026

October 29 (Thu) - 30 (Fri)  
Toyoda auditorium  
at Nagoya University in Aichi, Japan

## Transforming Glycoscience through Interdisciplinary Approaches

### Plenary Speaker

*Glycobiology in Cancer and Development*

**Dr. Michael Tiemeyer**  
(Complex Carbohydrate Research Center,  
University of Georgia)

### Keynote Speakers

*Developmental Cell Biology  
of Plant*

**Dr. Tetsuya Higashiyama**  
(The University of Tokyo)

*Intelligent Informatics*

**Dr. Ichiro Takeuchi**  
(Nagoya University / RIKEN)

*Chemical Biology  
Translational Glycobiology*

**Dr. Lara Mahal**  
(University of Alberta)

*Structural Glycobiology,  
Glycobioinformatics*

**Dr. Elisa Fadda**  
(University of Southampton)

*Glycochemistry,  
J-GlycoNet Topics*

**Dr. Shino Manabe**  
(Hoshi University)

*Chemical Cellomics,  
Chemical Biology*

**Dr. Young-Tae Chang**  
(Pohang University  
of Science and Technology)

*Computational  
Chemistry and Biochemistry*

**Dr. Suyong Re**  
(National Institutes of Biomedical  
Innovation, Health and Nutrition)

### Invited Speakers

*Human Glycome  
Atlas Project Topics*

**Dr. Yusuke Matsui**  
(Nagoya University)

*Chemical Biology*

**Dr. Yuichiro Hori**  
(Kyusyu University)

*Marine Sciences*

**Dr. Vincent Laudet**  
(Okinawa Institute of Science and  
Technology Graduate University)

*Molecular Plant Physiology  
J-GlycoNet Topics*

**Dr. Hideki Yoshida**  
(Fukushima University)

[Host] Institute for Glyco-core Reserch (iGCORE) of Nagoya University and Gifu University  
[Co-Host] J-GlycoNet / Human Glycome Atlas Project
